## 2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## School Facility Conditions and Planned Improvements

District maintenance and site custodial staff ensures that the repairs necessary to keep the school in good condition are completed in a timely manner. School employees communicate non-routine maintenance requests by submitting work orders, which are addressed in a timely manner. Morning inspections by the maintenance staff ensures that the facilities are cleared of any safety hazards before the students and teaching staff arrive. The school shares three maintenance/custodial workers with the other two schools on site to ensure the premises are kept safe for everyone. These three workers are responsible for cleaning the classrooms, offices and restrooms, general maintenance around the school, grounds keeping, lunch area setup and cleanup, and trash removal. Restrooms are checked regularly throughout the day for cleanliness and subsequently cleaned as needed. The principal and CBO meet with custodial staff daily concerning maintenance and school safety issues. We are in the planning stages to upgrade the blacktop area of the elementary school.

### School Facility Good Repair Status

The maintenance personnel use the Facility Inspection Tool (FIT) to conduct an annual inspection of the facilities. The purpose of the FIT is to determine the adequacy of the school facilities to provide a safe and nurturing learning environment and to identify any areas that require repairs. The most recent FIT inspection was conducted on December 2023 and the Overall Facility Rate was good. The table below shows the rating for each critical area covered by the FIT inspection.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

#### College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

### Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23
<b>English Language Arts/Literacy</b> (grades 3-8 and 11)	3	15	11	29	47	46
<b>Mathematics</b> (grades 3-8 and 11)	6	0	15	14	33	34

## 2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2023-24 School Safety Plan

Baker Elementary School's Safety Plan is a document with information pertaining to the proper way of responding in the event of an emergency or an unforeseen situation. The plan is revised and updated by the School Site Council once per year. The date it was last reviewed and discussed by the School Site Council was in October 2023.

The key elements included in the School Safety Plan include:

- **Organizational Roles and Responsibilities.** This section details what is expected from each of the individuals who respond to an emergency, including staff, administration, and first responders. It also contains details about what information is released to the public and who is responsible for releasing that information.
- **Functional Content.** This section includes details on what the appropriate response should be of a variety of specific emergencies, including fires, earthquakes (drop, cover and hold), evacuations, lockdowns, shelter-in-place, medical and mental health and security in general.
- **Other Hazard and Threat Specific Situations.** This section details the procedures in case of a hazard analysis, an active shooter situation, a hostage situation, a bomb threat, an incident of terrorism, other natural disasters (flood, severe weather, etc.), a chemical accident, an explosion, a bus accident, and a biological hazard or blood borne pathogen.
- **Recovery and Mitigation.** This section includes information on how to reduce the stress caused by an emergency situation as well as the proper way of record keeping and cost analyses.

We conduct regular fire drills, and we participate annually in the Great American Shakeout for earthquake preparedness. We are also updating our bell system to feature multiple rings categorized for specific drills. Our job is to create a safe environment
